### About Tom's new book:

What if a serial killer and terrorist plot were active simultaneously in the same beach town? The action packed novel When Killers Collide answers how do you stop a rapacious killer and subvert domestic terrorists?

The gruesome methodology found in a killing field in Indiana reappears in North Carolina as the sexually obsessed killer has re-emerged. What begins as a search for a missing woman uncovers a serial killer and unravels a plot to destroy a city. As victims appear, the paths to murder converge. The outcome is intriguing and unpredictable, as Harry Powell drives to stop killers, profiteers and terrorists. This is a powerful and inventive tale with an uncharted storyline. Conflict between compelling characters captivate readers in page turning actions. Unique crisscrossed story lines culminate in a dynamic cinematic conclusion.

When Killers Collide follows a treacherous conflict between those with a genealogy that drives killing and those who choose to eliminate anyone who stands in their way. Does group loyalty supersede personal integrity? Can we escape our past to control who we become? What happens when killers collide?

The previous writings of Tom Olsinski paralleled his careers. At Fordham University, he edited the college newsletter. As a pharmacist, he contributed a newspaper column entitled *You and Your Health*. Then, as a marketing executive, he wrote the *Mind Your Business* column for Hearst Publications.

In addition to writing business articles on strategic planning and leadership, Tom has lectured on ethics at business schools. Since focusing on fiction, he has written several crime novels. When Killers Collide is the most recent.

#### A Special Concern for the Poor and Neglected

Father Andre Coindre's concern for the poor, neglected, and de-Christianized youth is at the heart of our educational mission. We share his determination to provide educational opportunities for as many materially poor students as possible and continue to look for new ways to increase our efforts on their behalf. We work to sensitize the entire school community to the needs of the materially poor. We strive to address the needs of our students who experience learning, personal or social problems.
